Soliant's 2019 Most Beautiful Hospitals in the U.S.

Nominations now open for the 10th annual contest

ATLANTA (PRWEB) May 01, 2019 -- Soliant, a leading healthcare staffing provider and part of the Adecco Group, launches its 10th annual contest to uncover the top 20 Most Beautiful Hospitals in the United States. This competition includes hospitals of all sizes and incorporates a wide array of criteria – from aesthetics and structural design to the dedication and expertise of hospital staff – which contribute to the health and well-being of patients.

In 2009, Soliant set out to discover the top 20 Most Beautiful Hospitals across the country. Ten years later, more than 135 outstanding hospitals have been recognized by Soliant for their commitment in creating holistic and healing environments. In recognition of its 10th year hosting this contest, Soliant will donate $2,500 to the foundation of the hospital that wins the 2019 Most Beautiful Hospital title.

“Exceptional hospital design that incorporates physical and technical aspects play a significant role in how patients and employees feel from the moment they walk through its doors and throughout the entire care process,” said David Alexander, president of Soliant. "And, hospital beauty is more than skin deep; healthcare staff create the heart and soul of the hospital, radiating a special kind of beauty formed through genuine connections with patients.”

From a recent Soliant survey on what makes a hospital beautiful, respondents expressed that state-of-the-art facilities and patient and employee satisfaction are equally important.

“As hospitals across the country continue to focus on enhancing patient care, it’s clear that beautification efforts are essential in creating and maintaining nurturing relationships amongst hospital staff and patients,” Alexander added.

This survey also found that when assessing hospital beautification efforts, 98 percent of respondents felt that such efforts increase patient satisfaction and 95 percent expressed the same regarding staff satisfaction. Additionally, respondents indicated state-of-the-art facilities and technologies (31 percent), patient room design (31 percent) and the unique use of indoor and/or outdoor space (30 percent) were key elements in impacting staff and patient satisfaction.

Know of a hospital that is beautiful inside and out? Nominations for the Most Beautiful Hospitals are currently open at https://www.soliant.com/most-beautiful-hospital-contest/. Any hospital or facility located in the United States is eligible, and all hospitals nominated will advance to a month-long voting period. The public is invited to vote on their favorite nominees based on several factors, including architectural design and patient experience.

About Soliant
Soliant, an Adecco Group company, is a leading provider of specialized healthcare staffing services to hospitals, schools, and other healthcare providers. By supplying traveling healthcare professionals on both
temporary and direct hire assignments, Soliant delivers comprehensive healthcare staffing services across the United States.
