New Self-improvement Book Helps Readers Think and Reflect on Their Own Knowledge

Angel Knight announces publication of ‘Ascension Battlefield’

Spiritual experiences are real; however, Knight believes that since people often don’t can’t make sense of them, so people need help to understand logically the reality of these experiences, and the truth of an inner light. Taking readers on a teaching journey of discovering their inner universe, the author demonstrates the process through her own life experience. Knight aims to bring hope and clarity to anyone who has been through emotional challenges and unexplainable experiences, and who may struggle to easily achieve lasting peace and stillness in our fast paced modern day life.

Knight hopes her book gives readers a “Sense of greater awareness, expansion of knowledge, hope, to be able to see the Universe as a part of the whole of who they are and not outside of us, feeling uplifted, inspired, satisfied and eager to move forward from a new empowered perspective.”
