RMA of Connecticut Announces Doctorate Achievements for Dr. Amy Matton and Dr. Elaine Malin in the Area of Acupuncture and Chinese Medicine

Patient-Centered Integrative Fertility Care Boosts Overall Health, Improves Success Rates, and Enhances Patient Experiences

NORWALK, Conn. (PRWEB) February 04, 2020 -- RMA of Connecticut, a leading fertility practice whose exceptional quality and care helps couples and individuals grow their family, has announced that Dr. Amy Matton, DACM, L.Ac. and Dr. Elaine Malin, DACM, L.Ac., have received Doctorate degrees in acupuncture and Chinese Medicine from Pacific College of Health and Science. The doctoral degree focused on increasing clinical skills, patient-centered care, working integratively with Western medicine, and evidence-based practice. As the demand for patient-centered integrative care in the field of fertility increases, Dr. Matton and Dr. Malin will continue to provide patients with natural evidence-based care.

“We want to congratulate and acknowledge Dr. Amy Matton and Dr. Elaine Malin for their achievements and dedication in the field of acupuncture and Chinese Medicine,” says Robin Mangieri, CEO of RMA of Connecticut. “We combine the best science has to offer through our esteemed fertility doctors along with our expansive integrative fertility and wellness programs to provide our patients with the best care all under one roof.”

Acupuncture can increase fertility by lowering stress and anxiety, increasing blood flow to the reproductive organs, and balancing the endocrine system. It can also increase a couple’s chances of conceiving by helping to keep the normal flow of energy unblocked. RMA of Connecticut was involved in a landmark study indicating pre and post embryo transfer laser acupuncture improves embryo implantation rates by up to 15%.

Dr. Amy Matton, DACM, L.Ac., has been providing traditional and laser acupuncture to women undergoing treatment for infertility at RMA of Connecticut for 15 years. She also serves as the Coordinator for the Integrated Fertility and Wellness Programs (IFW) at RMA of Connecticut. She is a graduate of Pacific College of Health and Science with a doctoral degree in Acupuncture and Chinese Medicine, a licensed acupuncturist and certified herbalist. Dr. Matton’s areas of expertise include women’s health and fertility issues, pain management, anxiety, stress, and adjunctive cancer care.

Dr. Elaine M. Malin, DACM, L.Ac., is a licensed acupuncturist and certified herbalist who has worked with RMA of Connecticut patients for seven years. A general practitioner with a broad range of experience, Dr. Malin has specialized training and experience in women’s health issues including fertility and pregnancy, as well as in treating anxiety, stress, and their physical manifestations.

RMA of Connecticut is a leader in integrated fertility and wellness with an emphasis on the mind, body, and spirit, which boosts overall health, improves success rates, and enhances the patient experience. To learn more, visit RMACT.com.

About RMA of Connecticut
RMA of Connecticut is a leader in fertility care, specializing in a range of infertility treatments. Our assisted reproductive technologies (ART) include intrauterine insemination (IUI), in-vitro fertilization (IVF) and pre-implantation genetic testing (PGT). RMA of Connecticut is Fairfield County’s largest fertility clinic and egg donation center. Through RMA of Connecticut’s Integrated Fertility and Wellness Center, we offer nutrition
counseling, individual and couples psychological counseling, acupuncture and yoga, as well as financing and support services for our patients going through infertility treatment.

Our internationally recognized Gay Parents To Be® program at RMA of Connecticut specializes in LGBTQ family building. For the last three years, RMA of Connecticut has been recognized as a Leader in Healthcare Equality by the Human Rights Campaign.
