American Filtration and Separations Society -- 22nd Annual Technical Conference

The American Filtration and Separations Society will hold its 22nd Annual Technical Conference & Exhibition on May 4-7, 2009 at the Sheraton Hotel in Bloomington, MN.

Minneapolis, MN (Vocus) January 26, 2009 -- The American Filtration and Separations Society will hold its 22nd Annual Technical Conference & Exhibition on May 4-7, 2009 at the Sheraton Hotel in Bloomington, MN.

The conference is kicked off on Monday, May 4th with twelve short courses being offered. These courses include:
- Fundamentals of Liquid Filtration
- Fundamentals of Air/Gas Filtration
- Basics & Applications of Particle Characterization
- Microfiltration Membranes
- Ultrafiltration Membranes
- Gas Solid Separation with Fabric Filters
- Gas Solid Separation with Cyclones
- Nonwoven Air Filtration
- Electrostatic Charging and Electrets for Air Filter Media
- Wastewater Treatment/Sludge Dewatering
- Liquid Filtration Testing Basics
- Advanced Engine Filtration

The technical sessions begin on Tuesday, May 5th and run until noon on Thursday. Keynote speakers include, Professor David Pui, University of Minnesota, Professor Steve Tarleton, University of Loughborough, Professor Gerhard Kasper, Universitat Karlsruhe, Dr. Debra Wilfong, Donaldson Company, Elizabeth Carey, Cummins Power Generation and John Peichel, GE-Osmonics.

In addition to the technical sessions, tours are planned for Donaldson Company, TSI, Inc., GE-Osmonics, and the Particle Technology Laboratory, University of Minnesota.

What do AFS Conference Attendees Say!

"Since I started my professional career in the separations field in 2001 I am a constant attendee of the AFS annual conference. I have benefited from my attendance in many ways, from getting aware of the newest developments in the separations area to making a lot of new valuable contacts and friends. Also the opportunity to present my own latest work helped me to generate interest and to get extremely valuable feedback, which was very beneficial for my research work. Thank you AFS."
Benjamin Fuchs, Dupont

The conference offers companies the opportunity to promote their products and services through conference sponsorships and tabletop exhibits. This conference will be the largest gathering of filtration and separation experts in North America in 2009.

AFS is the premier organization in North America dedicated to R&D, problem solutions and technology transfer in filtration and separation for the benefit of industrial processes, individual health and a clean environment.

The AFS conferences and events bring together the industry leaders, presenting the greatest opportunity to meet and hear the newest information in filtration and separation technology.

Over the past two years over 300 organizations have sent representatives to AFS events. These companies understand the value of employees with knowledge of the latest information in filtration and separation technology.
