Come Fly with Maverick Airlines! Maverick Aviation Group Recently Launched a Luxury Air Charter and Tour Service

Maverick Aviation Group, which is based in Las Vegas, Nev., recently launched Maverick Airlines, a new regional air carrier. It offers charter services throughout the Southwest along with transport to popular rafting and helicopter tours offered at the West and South Rims of the Grand Canyon.

Las Vegas, Nevada (PRWEB) March 4, 2009 -- Maverick Airlines (www.maverickairlines.com), a new regional air carrier that was launched in October of 2008, offers charter services throughout the Southwest along with transport to popular rafting and helicopter tours offered at the West and South Rims of the Grand Canyon.

"We were delighted to launch services connecting the Grand Canyon with the Entertainment Capital of the World," said Don Donohue of Maverick Aviation Group. "These flights cater to the unmet needs of visitors and businesspeople who want to more widely explore the region."

Maverick Airlines is based at the Henderson Executive Airport, which is located less than 15 miles from the Strip. The modern fleet is comprised of two Beechcraft 1900D ExecLiner airplanes, which seat 18 passengers. The cabin is spacious, so guests have plenty of leg room and can walk upright. Passengers also appreciate the luxurious amenities, which include leather seating and soft lighting.

"Our service and attention to detail is what lifts us above everyone else," added Donohue. "Flying with us is no gamble because safety is always our top priority."

In fact, the twin-engine turboprop planes are designed to operate in all weather conditions. There are always two pilots on board the pressurized Beechcraft 1900D ExecLiners.

Rather than simply being an airline, Maverick Airlines is designed to be a door-to-door journey solution that can adapt to whatever visitors need. For instance, charters can be arranged to popular golf courses or football games in Southern California. Or they can carry wedding parties to nearby natural wonders. The options are limitless, and free pickup for all tours and charters is available.

Together with Maverick Helicopters, Maverick Airlines is redefining sightseeing in and around Las Vegas. Both brands are dedicated to upholding the highest standards of excellence in making a journey a memorable experience. And they've blazed a trail of firsts by introducing a range of tours that have revolutionized the whole experience of flying.

"We've also elevated all our customers to a level of being VIPS and not just passengers," said Donohue.

Maverick Airlines' offices and check-in lobby are located at 1410 Jet Stream Drive, Suite 100, just across from the Henderson Executive Airport. You can visit Maverick Airlines Web site at maverickairlines.com.

Maverick Aviation Group was launched as Maverick Helicopters in 1995 with just one helicopter and the goal of offering visitors the finest level of service possible in the helicopter tour industry. Today, it has the largest fleet of ECO-Star helicopters in the world. Along with the Las Vegas Strip, Valley of Fire, Hoover Dam and Grand Canyon West, the company began offering tours at the South Rim of the Grand Canyon in 2005. In 2008,
Maverick Airlines was launched. It is comprised of two Beechcraft 1900D ExecLiner aircraft that provide direct flights to the West and South Rims of the Grand Canyon from the Henderson Executive Airport.
