About HPNS
HPNS has been in existence since the early sixties. In that time we have helped thousands of families grow into a bright and beautiful community.

Our school serves the needs of families with children from the ages of two to five years in an embracing, non-discriminatory environment. We emphasize the development of the whole child; cognitive, social-emotional, creative and physical.

In addition to providing a warm and caring environment for our children, we ask all of our parents to participate in a vigorous parent educational program and to be a part of our daily school sessions.
We would be very interested in offering your business products at this year’s Festival Raffle. Please feel free to contact me with your questions, information, and donations.
