The Workplace Revolution - Restoring Trust in Business and Bringing Meaning to Our Work by Matthew Gilbert

In The Workplace Revolution, Matthew Gilberg provides both personal strategies and corporate methodologies for improving overall health in the workplace and restoring trust and goodwill between business leaders and their employees.

(PRWEB) April 17, 2005 -- From the Enron debacle to the Martha Stewart scandal, trust in business practices and in corporate leaders has been seriously jeopardized, hitting an all-time low. According to Matthew Gilber in his latest book, The Workplace Revolution (Conari Press, May 2005), the problem stems from relentless work ethic, the tireless pursuit of profit, and the conflict between business values and human values.

Today more than ever, people are waking up to the fact that they are not getting back what they give to their employers. While they are dedicating an inordinate amount of themselves to their work, their jobs offer little to meet their needs for community, self-expression, and service, and many have simply abandoned the possibility that self-serving, profit-driven companies can offer more than a paycheck.

Gilbert assures us the problem is not hopeless. In The Workplace Revolution, he provides both personal strategies and corporate methodologies for improving overall health in the workplace and restoring trust and goodwill between business leaders and their employees. With statistics and commentary from a wide range of sources and examples of companies such as Hewlett-Packard that are already balancing economic and human concerns, he demonstrates to worker and CEO alike that they can turn the experience of work into a spiritual, ideal-based, life-enhancing adventure for all concerned and still meet corporate goals.

Matthew Gilbert was the managing/executive editor of a publishing trade magazine for six years and has been a manager and consultant for many small companies. He has written extensively on business, psychology, and spirituality and is the author of Communication Miracles at Work and Take This Job and Love It. Gilbert is now the editor-in-chief at the Institute of Noetic Sciences and lives in California with his wife and their two cats.
