Suzanne Somers to Speak at American Academy of Anti-Aging Medicine Conference; Other Internationally Renowned Speakers Will Present

The world's largest medical conference on human longevity, life extension and life enhancement takes place December 7-10, 2006, at The Venetian Resort Hotel & Casino in Las Vegas, Nevada, USA. Popular television and movie actress Ms. Suzanne Somers will make a rare speaking engagement, presenting to the event delegates the details of her new bestselling book, "Ageless" (Crown Publishers, 2006). In addition to Ms. Somers, the American Academy of Anti-Aging Medicine (A4M) will welcome several of Hollywood's Silver Screen luminaries to the Congress. These Hollywood celebrities are but a small part of the many A-List of famous movie and television actors and actresses who already follow personalized anti-aging medical regimens administered by some of the leading pioneering physicians of the A4M.

Chicago, IL (PRWEB) November 19, 2006 -- The world's largest medical conference on human longevity, life extension and life enhancement takes place December 7-10, 2006, at The Venetian Resort Hotel & Casino in Las Vegas, Nevada, USA. Co-sponsored by the American Academy of Anti-Aging Medicine (A4M; www.worldhealth.net), the Winter 2006 Session of the 14th Annual International Congress on Anti-Aging Medicine and Regenerative Biomedical Technologies will draw more than 6,000 physicians, health practitioners and industry leaders. All totaled, more than 90 internationally renowned speakers will present the latest clinical and research insights pertaining to human aging, life enhancement and life extension during this four-day academic program.

Popular television and movie actress Ms. Suzanne Somers will make a rare speaking engagement, presenting to the event delegates the details of her new bestselling book, "Ageless" (Crown Publishers, 2006). Ms. Somers, who turned 60 this year, is an ardent supporter of bioidentical hormone replacement therapy to alleviate menopausal symptoms and improve quality of life. Ms. Somers will speak during the 14th Annual Congress' General Session program, on Friday, 8 December, at 9:40 a.m. PST.

In addition to Ms. Somers, the A4M will welcome several of Hollywood's Silver Screen luminaries to the Congress. These Hollywood celebrities are but a small part of the many A-list of famous movie and television actors and actresses who already follow personalized anti-aging medical regimens administered by some of the leading pioneering physicians of the A4M.

The Winter 2006 Session of the 14th Annual International Congress on Anti-Aging Medicine and Regenerative Biomedical Technologies offers up to 56 AMA PRA Category 1 Credit(s)™ focusing on scientific educational programming in some of the most promising arenas of preventive medicine, including:

~ Biomarkers of aging
~ Obesity and medical weight management
~ Cardiovascular disease prevention and treatment
~ Bioidentical hormone replacement therapy
~ Laser surgery, skin resurfacing, fillers, and other facets of aesthetic medicine
~ Stem cell therapeutics
~ Genomics and genetics of aging
~ Nanotechnology
Comments Dr. Ronald Klatz, A4M founder and President: "This Winter Session of the A4M's Annual International Congress draws nearly 100 world-renowned faculty, as well as high-caliber delegates including practicing physicians and health practitioners, research scientists and government health officials from around the world. This makes for a unique combination of excellence among all attendees that optimizes this forum for educational exchange." Adds Dr. Robert Goldman, A4M Chairman: "This is the largest event of its kind, ever. As a group, these 6,000 participants represent the most innovative pioneers in advancements in life enhancement and life extension medicine around the world."

The Winter 2006 Session of the 14th Annual International Congress on Anti-Aging Medicine is co-sponsored by The American Academy of Anti-Aging Medicine (A4M; www.worldhealth.net), the academic leader in a worldwide movement in life enhancement and life extension that impacts more than 100,000 physicians in 80 countries. The A4M is a non-profit medical society dedicated to the advancement of technology to detect, prevent and treat aging related disease and to promote research into methods to retard and optimize the human aging process. A4M is also dedicated to educating physicians, scientists and members of the public on biomedical sciences, breaking technologies and anti-aging issues. A4M seeks to disseminate information concerning innovative science and research as well as treatment modalities designed to prolong the human lifespan.
