Juniper Systems Mesa Rugged Notepad™ Secures TerraGo® Mobile™ Certification

Popular Rugged Handheld Latest Device to Use TerraGo Mobile Solution for Geospatial Collaboration

Atlanta, GA (PRWEB) June 01, 2011 -- Juniper Systems’ Mesa Rugged Notepad is the newest device to be certified by TerraGo® Technologies for use with the mobile solution of its widely adopted geospatial collaboration software.

TerraGo Mobile™ enables front line personnel to access, share and easily update geospatial intelligence as well as collaborate peer-to-peer or with the enterprise using TerraGo GeoPDF® maps and imagery. With TerraGo Mobile software, handheld device users can access geospatial maps, imagery and other geospatial intelligence and interactively update them with current georeferenced notes, photos, video and Web services anywhere in the field, whether connected or offline.

Juniper Systems is a world leader in ultra-rugged handheld computers and intuitive field computing solutions for personnel in the military, natural resources, public works, agricultural, geomatics and industrial markets. The Mesa Rugged Notepad is the latest addition to Juniper’s complete lineup of rugged handheld computers, providing a unique platform for dedicated field data collection applications that can withstand the extreme outdoor environments.

“The outstanding capabilities of TerraGo Mobile, paired with the Mesa Rugged Notepad, create an intuitive solution that simplifies GIS imagery in field data collection for our customers like never before,” said DeVon Labrum, director of sales and marketing for Juniper Systems.

“TerraGo Mobile continues to gain market traction and our relationship with Juniper Systems is the latest example,” said Richard McKay, senior vice president of sales and business development at TerraGo. “It’s a great combination to truly unlock the benefits of GIS for front line users in the field.”

Other handheld devices compatible with TerraGo Mobile software include the Juniper Systems Archer Field PC, Trimble Juno and the Topcon GMS-2 Pro.
