EASING THE WHEEZING, SNEEZING AND ITCHING RESULTING FROM PET ALLERGIES

With the launch of Petal CleanseÂ® in the Americas this year, people who love pets but hate the allergic reactions associated with them, can be liberated from the awful symptoms --- puffy, streaming eyes, stuffy nose, sore throat, breathing difficulties, asthma, eczema & hives.

(PRWEB) November 12, 2003 -- With the launch of Petal CleanseÂ® in the Americas this year, people who love pets but hate the allergic reactions associated with them, can be liberated from the awful symptoms --- puffy, streaming eyes, stuffy nose, sore throat, breathing difficulties, asthma, eczema & hives.

Developed and manufactured by Bio-Life Europe Ltd in the UK since early 2000, Petal CleanseÂ® is a surfactant based liquid solution that removes from the fur and feathers of cats, dogs, rabbits, birds and small animals the allergens that trigger the reactions. Independently tested and the recipient of an Allergy UK award, the solution is 99.9% effective for the allergy sufferer and 100% safe for the pet. Owners simply wipe or spray the pet with Petal CleanseÂ® once a week. The only side-effects: freedom from pet allergies and a shiny, healthy coat or feathers! Contact allergens (associated with touching/petting) improve immediately after the pet is cleansed. However, asthma sufferers may find that it takes up to 3 weeks for relief because of the time it takes to reduce the airborne load in the home.

A 350 ml bottle retails for $16.95 in the US and lasts a single pet about 3 months with regular use. Available only on our web site, on TV, by phone and at very select retail stores at this time in the US Â– soon to be launched on a national scale.

For further information in the UK, Europe and Canada, contact the Pet Allergy Helpline, +44-01608 686626 or visit the web-site at www.Bio-Life.co.uk .
